WELCOME TO THE THIRD - UNIVERSAL ROUND DANCE CONVENTION

Another successful year has come and gone for U.R.D.C. with an excellent program planned for the third convention.

Memberships in U.R.D.C. have boomed the past year, thanks to the efforts in promoting U.R.D.C. through it's excellent teaching manual and the realization by Round Dance Leaders and Dancers alike throughout the world that U.R.D.C. has much to offer in educating all levels of round dancers and teachers from the beginner to the advanced.

Teaching Manuals have been distributed way beyond expectations and are now scheduled for the fourth printing, showing the tremendous interest Round Dancers and their Leaders have in advancing and promoting better dancing, and in getting all terms and figures standardized.

Round Dancers have added the choreographed Disco beat, the past year, to their repertoire of rhythms, and are enjoying the new inovations associated with the Disco beat.

Many thanks must go again to our Chairman of the Board, Frank and Iris Gilbert, in their tireless efforts in promoting the education and advancement of Round Dancing.

We wish to extend our thanks to our presidents, Roy and Phyllis Stier, who are now completing their second successful term in leading the Universal Round Dance Council through the growing pains.

The Board of Directors must be congratulated for their cooperative efforts in the formulation of plans and ideas for the betterment and advancement of Round Dancing.

A vote of thanks to all the dance instructors who are so great as to give of their time and talents for the clinics, teaches and panels.

A special thanks should go to our General Chairman of the third National Convention, Francis and Gwen Flaherty, and their staff for their efforts in planning a top program of education and pleasure.

To Dorothy Lovelace, our faithful cashier for the third time around, a very special thank-you, for your untiring devotion to Round Dancing.

HOWEVER, without YOU, the avid Round Dancer, always willing and enthusiastic to learn, listen, and enjoy the artistic pleasures of Round Dancing, all of this could not be possible.

Tom Bradt - In Memoriam

All of the round dance community were saddened by the passing of Tom Bradt, for in him were the ingredients and inspiration of a true leader. He and Lillian founded a happy combination of teaching and choreographing that carried them to national recognition. Tom was somewhat of a legend as a round dance cuer - his enthusiasm and knowledge won him much respect everywhere. Our best wishes to Lillian who is carrying on as Vice President and board member of U.R.D.C.

"For Outstanding Service To Round Dancing"

79-13
UNIVERSAL ROUND DANCE COUNCIL

GOLDEN TORCH AWARD

Presented to: Frank & Iris Gilbert

In recognition of:-

- (1) their outstanding efforts in organizing and maintaining the National Carousels, with an inestimable investment of time and effort in that direction;
- (2) accepting the responsibility of getting our first National Round Dance Convention off the ground, again with a commitment of considerable amounts of their own time and money;
- (3) helping to establish the U.R.D.C. as a strong and vital force in the Round Dance activity;
- (4) their many years of unselfish devotion to teaching, the contribution of their many choreographed dances, their outstanding work with a teen-age exhibition group in the Kansas City area in the past;
- (5) and working untiringly for the betterment of Round Dancing in general.

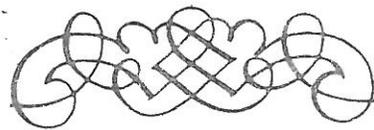

Respectively submitted by,

Tom & Lillian Bradt

PASO DOBLE CLINIC

3rd National Round Dance Convention ----- Roy & Phyllis Stier

The Paso Doble is a rhythm dance that basically simulates a marching beat. It can be considered a one-step with phrasing on 4 or 8 beats of music. The man assumes the role of the matador when he emulates the proud manner found in the bull ring - the woman becomes the cape and, therefore, is called upon to make the more flaring movements of the dance.

Paso Doble music has a strong flavor of a brass band arrangement and uses a 2/4 time (60 to 62 measures per minute). Although traditionally one step is taken to each beat of the music, it is possible to dance the figures to 3/4 (or 6/8) time for a particularly good selection, again on each beat of the music. The terms used for the figures are largely of French origin, this because it reached its greatest development in Southern France where the Spanish influence was strongest. Sur Place is stepping in place; Appel is a movement which calls the bull and is accompanied by a stamping step; Huit is a figure of eight counts (hence the name) where the woman becomes the cape for a pass by the bull; Ecart comes from the French word ecarter (to open or step aside) and is really a fallaway whisk in round dance terminology; Coup de Pique is the prodding of the bull to enrage it, but the movement in the dance does not identify closely with this idea. Other figures such as Separation, Banderillas, Chasse Cape, Grand Circle, etcl are self expressive without the use of French nomenclature.

The dance hold is a loose one with rounded arms with the partners up to a foot apart while doing the figures. The M's R hand is usually held at the W's L shoulder blade but some dancers choose to use the W's upper arm, thus getting more than the usual separation. The W places the fingers of her R hand between the M's thumb and first finger so that when an Appel is used the M can turn his palm outward (on turning figures). Most of the fwd movements are heel to flat, backward - ball to flat. Nearly all figures start with the M's R foot (W's L) which requires some concentration while first learning this rhythm.

Following are some descriptions of basic figures we will use in the clinic:

Separation: Starting with the loose CP appel on R and lower joined M's L & W's R hands in preparation for pushing ptr away, L fwd short step and then cl R to L, continue to step in place (Sur Place) L,R,L,R,L while W backs up 3 steps and closes on the 4th, then fwd back to her original position on steps 5-8. Originally the free hands were held at the side but most dancers now raise their free hands in a sweeping arc (M's R & W's L) on counts 3 & 4 - then lower on count 7. The fingers of the free hand are held in the same manner as one removing an overhead light globe.

PASO DOBLE CLINIC notes cont.

Ecart: From loose CP appel on R while lowering M's L (W's R) hands, L fwd, R fwd & diag to the R starting to turn to V-SCP, L XIB of R (loosely) to fallaway pos (steps 2-4 are like a vigorous flat-footed whisk). This completes the ecart, however, for the clinic we will recover on M's R (W's L) for a twirl in 3 steps to blend to loose CP.

Sixteen: (modified) We will use just steps 1-6 of the Sixteen in order to repeat the figure and end facing the wall. Starting in loose CP with the usual appel and L hand outward lead, blend to V-SCP on step 3 (M's L), XIF of W on step 3, step L side & slightly back to face RLOD, bk R leading W to contra Bjo, bk L turning RF still in contra Bjo, bk & side R starting to blend to V-SCP fac COH (W side L to face approx RLOD & COH, fwd L to V-SCP), continuing the modified Sixteen to repeat the figure where steps 9-13 are the same as steps 3-7 as ptrs cl to face on step 16 with weight on M's L & W's R.

Grand Circle: Again, from a loose CP and lowering joined hands with L lateral movement XRIF of L with a strong motion (W trn RF fwd L). The RIF position is held as the M leads the W around in a wide CCW direction circling in 7 more steps to end fac M for one full turn - M's weight transferred to the L foot on step 8. A strong back arch is used and the head turned sharply to the L until count 8 (W starts turn to fac M on count 7 and nearly closes R to L on count 8).

Elevations: Elevations are a series of side steps or chasses (usually 4) which are normally to the R (L elevations can be used with a L foot lead to follow syncopated figures). The M's body, particularly, is held very erect and steps are taken on the ball of the foot with the joined hands held high. This is often followed by a series of 4 steps where the partners lower their body elevation and use the flat of the foot, leading off with an appel and lateral joined hand movement - both ptrs look away from the direction of the chasse.

Coup de Pique: Starting with a little swivel on the M's L (W's R) to the L (R) R XIF of L using the inside edge of the toe, cl R to L now fac ptr, L XIB of R to fallaway pos keeping knees well flexed, cl R to L now fac ptr, L XIB of R to fallaway pos, short step swd on R, in place L/R,L. There is a definite change of elevation in this figure with the low profile on each of the fallaway to V-SCP steps (cts 3 & 5).

Chasse Cape: The first 6 steps of the modified Sixteen are used. Then fwd R twd COH as W cl L to R & blend to V-SCP, side L diag LOD & COH nearly cl R to L, side L. This chasse is done with M slightly ahead of the W and using a strong L sway with the back well arched. Short step back on R (very much like the 1st step of an outside spin) turn approx 1/8 LF while starting to lead W to XIF turning LF, fwd L cont LF turn (W cl R to L), side R diag LOD & wall nearly cl L to R, side R. The turns to chasse can be continued but usually a series of 3 is used leading to a press line. Note: The chasses are on counts 8 & 1, - 4 & 5...

SLOW FOX TROT WORKSHOP

KANSAS CITY - JULY 20, 1979

Presented by Glen & Elaine Dolmar

Slow Fox Trot is a beautiful flowing dance. The basic steps are no harder to learn than those of other dances. Because the rhythm is exceeding slow it requires good control of body movement and balance.

All workshop notes, steps, etc. refer to music played in 4/4 time at about 30 measures (bars) per minute.

The Slow Fox Trot is characterized as being extremely smooth and unhurried in its appearance. When danced correctly it should give the feeling of flowing with the greatest of ease. Always try to be smooth and acquire the gliding movement which must not be hurried, avoid the feeling of stiffness or restricted movement. Because of the very slow 4/4 timing, the slow and quick steps involved will have a longer time to execute the steps than in other 4/4 rhythms. The movement is always flowing and the steps of slows and quicks should always blend into an unbroken sequence that looks and feels completely relaxed and controlled.

TECHNICAL NOTES -- given for understanding and application in Round Dancing:

In Slow Fox Trot the body swings with the rhythm. Assuming the correct posture is maintained the greatest rise and fall comes from the feet. This movement is referred to as a Heel (H) or Toe(T) movement. Correct body swing and the quickness of the step determine the heel or toe movement. Figure timing and Heel - Toe movements are given at the end of each figure explanation. The lady's steps when stepping backward is a Toe/Heel movement unless told otherwise: this is a natural back walk keeping the feet in contact with the floor at all times. -- There are foot movements that do not favor the heel or toe and this movement is called flat.

THE FEATHER STEP—Without doubt this figure is the most important figure of the Slow Fox Trot. It involves four (4) steps. The Feather Step can be used when the dance couple is in closed position. The figure usually curves ever so slightly to the right. Lady's footwork is opposite of Man.

1. Fwd R,-,(square with partner)
2. Fwd L, leading with the left shoulder forward but still square to partner (This is the start of the swing movement of the body.)
3. Fwd R; still leading with left shoulder with the foot well across in front of the body and outside partner on the right. This position is called OUTSIDE PARTNER/right.
4. Fwd L,-, resuming normal CP.*

Timing: S Q Q S

Heel & Toe Movements: Man: H T T H

Lady: Toe/Heel

*It is important to know that the last step of one Slow Fox Trot figure may become the first step of the next figure.

THREE STEP (a forward progression of 3 steps in CP)

1. Fwd R,
2. Fwd L,
3. Fwd R,-,

Timing: Q Q S

Heel & Toe Movements: Man: H T H Lady: Toe/Heel

NATURAL TURN (a turning right face figure of 6 steps explained starting CP/LOD)

1. Fwd R,-, turning right like a manuv to fc wall*
2. Sd L, LOD/Wall end CP RLOD/Wall**
3. Bk R, LOD end CP RLOD
4. Bk L making a right fc heel trn at the same time pulling the R around (do not close feet) end CP COH,-,(W beginning a right fc trn heel/toe,-,)
5. Sd R,-, (relax knees - use flat foot)
6. Draw L towards R and then step Fwd L with a flat foot COH

Timing: S Q Q S S S

Heel & Toe Movements: Man: H T T T Flat Flat

Lady: Toe/Heel H T H T T

* W bk L draw R to L and does a heel turn

** W cl R to L

The amount of turn can be varied slightly to meet the desires of the dancer.

Please note that the third step is not a close step as found in waltz.

REVERSE TURN - A basic Slow Fox Trot figure consisting of seven steps and occupies $2\frac{1}{2}$ measure of music. The first four steps comprise the Open Turn, where the feet pass each other on the third step without closing, and the last three steps are a Feather Finish.

This figure is often used in Slow Fox Trot and is a continuous left turning figure that flows, or moves, down LOD...We have never experienced moving this figure to RLOD, although it could be done. Under the category of conventional Slow Fox Trot this figure would most likely follow a Feather Step....Assuming that we did a Feather Step, the 4th step of the Feather Step becomes the first step of the Reverse Turn.

Assuming the Reverse Turn follows the Feather Step... Starting CP LOD/COH:

1. Last step of the Feather and first step of the Reverse Turn:
Fwd L,-, (diag. to center) square with partner CP. Body begins to turn left face.
2. Continuing to turn - Step Side R, (Man backing up to COH/LOD to fac wall and RLOD) Lady must be squarely in front of you.
(Lady closes L to R while making a R heel turn, left face - known as a reverse heel turn.)
3. Continue turning L in CP, step Back L (now CP Wall/RLOD)
4. Bk on R,-, (down LOD) keeping partner in front of you.
5. Turn on the ball of R as you step L to the side and slightly forward (to face the wall CP),
6. Fwd R, outside partner/right (Diag. Wall/LOD)
(Lady step Bk L as your partner steps outside you.)
7. Resume normal CP as you step Fwd L,-, diag wall/LOD
(Lady moves for the 7th step keeping R heel in contact with the floor as you step back.)

Timing: S Q Q S Q Q S

Heel & Toe Movements:

Man: H/T T T/H T/H/T T T/H H/Flat

Lady: T/H H/T T/H H/T T/H T/H T

THE OPEN TELEMARK in Slow Fox Trot is a basic figure. It contains four steps and occupies one and a half bars of music. The Telemark could be very easily preceded and followed by a Feather Step. Remember the first step of any figure could and often is the last step of another figure.

The Open Telemark is a very attractive four step figure in which the dancers open our somewhat so that the bodies form a "V" at the end of the figure (SCP).

Assuming the Open Telemark follows a Feather Step: The last step of the feather becomes the first step of the Open Telemark. We will end the figure with what is called a Feather Finish (steps 4,5,6 & 7).....Starting CP LOD/COH

1. Fwd L,-, diag COH/LOD CP and begin L turn.
2. Turning to face RLOD - side on R toe,(Man will feel that he is stepping to other side of lady.)
(Lady close L to R turning on R heel, finish facing diag Wall/LOD. Heel turn similar to the Reverse Turn.)
3. Continue turn on the ball of R foot move L fwd and slightly to side on toe,
(Lady step forward on toe of R foot diag toward wall without turning. On this step the man will continue turning, but lady does not.)
Bodies open out to form the "V" or SCP.*

The Open Telemark has now been explained.

Continue with Feather Finish (Steps 4,5,6 & 7.)

4. Fwd R moving diag LOD/Wall in SCP,-,
Lady Fwd L heel keeping SCP and moving forward diag wall.
5. Fwd L toe as you begin turning your partner to face you,
Lady turn to face partner step to side on R toe.
6. Continue turning your partner so that she will be moving backwards as you step R outside partner as in the Feather Step.
Lady continue turn so that you move backwards diag to the wall, stepping back on L as your partner steps outside you.
7. Fwd on L heel regaining CP.
Lady back on R regaining CP.

*On steps 3,4,5,6 & 7 the lady will be moving on a line diag Wall/LOD

Timing: S Q Q S Q Q S

Heel & Toe Movements :

Open Telemark

Man: H/T T T/H H/T T T/H H/Flat
Feather Finish

Lady: T/H H/T T/H H/T T/H T/H T/Flat

TOP SPIN - a standard in Slow Fox Trot containing five steps. Flows nicely after six steps of a Reverse Turn (L,R,L R,L,R). It is a tight L turn.

Assuming the Top Spin follows a Reverse Turn. Starts facing diag Wall/LOD (R fwd outside partner. It would be wise to take this sixth step and end with a slight checking of body movement. Do not pause or stop body movement.)

1. Bk L to RLOD (turning body L),
Lady R fwd to RLOD
2. Continuing L turn Bk R to Wall/LOD,
Lady L fwd to Wall/RLOD
3. L Side and slightly fwd (toe pointed LOD/COH)
Lady R side and slightly bk to LOD
4. R fwd, outside partner toward LOD/COH
Lady L bk to COH/LOD
5. L fwd, as you bring partner to face you in CP LOD/COH
Lady R bk, backing diag to COH/LOD

Timing: Q Q Q Q S

Heel & Toe Movements:

Man: T T T T/H H/Flat

Lady: T T T/H T/H T/Flat

Many of the figures used in Slow Fox Trot have already given us many hours of pleasure. They have given us the basis for this workshop. To list some of the basic figures would be to say Impetus, Weave, Wisk, etc. These figures are but a few of the many that are already used in Round Dancing. In order to use these figures in Slow Fox Trot all you need to do, in most cases, is to change the timing of the figures.
