In the heart of Florida

Convention 35 - Lakeland, Florida

July 20-23, 2011
The Story of The Swans in Lakeland, FL

Lakeland, whose lakes had been home to a varying number of graceful birds since at least 1923, saw its last swan fall victim to an alligator in 1954. Mrs. Robert Pickhardt, a Lakeland native living in England at the time, was familiar with the royal flock of swans on the Thames – birds descended from the original pair given to Richard—he of the lion heart. She inquired about purchasing a pair for Lakeland. Queen Elizabeth, known to be a little tight with a farthing, agreed to send a pair of swans to Lakeland if the city would pay the cost of capture, crating, and shipping, estimated at $300.

Eventually the money was raised and a pair of White Mute Swans from England were released on Lake Morton on February 9, 1957. Descendants of that pair continue to grace the city’s many lakes; today there are more than 200 birds, including White Mutes, Australian Black Swans, White Coscorba Swans from the Falkland Islands, Black Neck Swans from South America, white pelicans, ducks, geese, and other species.

Lakeland has learned its lesson and is very protective of its swans now. There is an annual swan round-up, at which time the graceful birds are inoculated against disease, and the city provides feeding stations and breeding pens along Lake Morton’s perimeter. The swan is now the city’s official logo.

A good place to view the swans of Lake Morton is at the corner of Lake Morton Drive and East Palmetto Avenue, near the Lakeland Library. If you are driving, be careful, the swans have the right of way.

Greetings!

As Mayor of the City of Lakeland and on behalf of my colleagues on the City Commission, welcome to Lakeland for Convention 35 of the International Choreographed Ballroom Dance Association. It is an honor that you have chosen The Lakeland Center in Lakeland to host this event and we appreciate you as participants. Ballroom dancing is very popular and we are so proud to have your dancers enjoy themselves in our City.

We encourage you to get acquainted with our City during your visit. We have many beautiful lake side settings as the name of our community suggests but our City offers much more than natural beauty. Lakeland is warm and friendly with many opportunities for entertainment including our historic downtown and our award winning parks. Lakeland is truly close to everything and away from it all. We enjoy our hometown feel with all of the amenities but we are blessed with Florida's popular attractions only a short driving distance away.

Please accept our invitation to enjoy Lakeland's hospitality and we invite you to visit Lakeland again and again.

Sincerely,

Gow B. Fields
Mayor
WELCOME TO LAKE LAND

Sharleen and I welcome you to the 35th Annual Convention of the International Choreographed Ballroom Dance Association (ICBDA). Our organization is proud to sponsor its 35th consecutive annual convention – it’s the once-a-year event that brings together Choreographed Ballroom Dancers from all over the world to celebrate the activity that we love. We’re happy to be back on the east coast again for the first time since 2006 and to be holding our convention here in Lakeland for the first time. We look forward to another great convention -- the program is excellent and this year we will feature the best sound system available.

In addition to having a wonderful time at the convention, plan on spending a few extra play days in this area. Lakeland, Orlando and Tampa Bay have so much to offer including Disneyworld, Lake Kissimmee State Park, many beaches east and west, major league baseball and many other attractions.

Our members are ICBDA’s most important asset and Sharleen and I are so happy you decided to attend this event - we want to thank each of you for being here to enjoy the convention and to support your organization. Our convention offers the comradeship of fellow dancers, both in dancing and in social activities, that occurs when friends get together. This is Choreographed Ballroom Dancing’s premier event of the year where we can learn many new dance routines, enjoy party dancing, and socialize with the best leaders in the world. This year we have a working and fun-filled schedule. We will use three full-time halls, including clinic workshops at the Phase IV, Phase V, and Phase VI levels, and will feature “Quickstep” and “Tango” rhythms, with follow-up teaches in these rhythms. In addition, there will be many new dance routines taught from the Phase IV through Phase VI levels, and party dancing in all three halls each night.

As you know, ICBDA is a completely volunteer organization. It requires a large number of dedicated individuals who offer their expertise, time and efforts working very hard to make sure that our convention is a success. We extend a special “THANK YOU” to Joe and Debbie Krivan and their committees who have been on the job for well over a year -- when you see a committee member during the convention, please be sure to say thank you to them for all their efforts to ensure the best convention possible for our enjoyment.

A very important part of each and every ICBDA Convention is the Annual General Membership Meeting (AGM). The meeting takes place on the last day of the convention and we urge each of you to attend. This is an opportunity to participate with your ideas and thoughts - your input is vital to the organization as ICBDA continues to encourage new and innovative ideas each year. At some time during the AGM Meeting we will hold a drawing for the winner of a free pass to next year’s convention in Greensboro, NC--the winner must be present at the meeting to win.

“Have a great time at your convention”.

Happy Dancing

Ed and Sharleen Martin
Welcome to the best ever Florida ICBDA Convention!

We’ve had fun with that phrase for a year and a half, since we started planning for this first ever ICBDA Convention in Florida, but we do sincerely hope this convention will be the best that you have ever attended. We have taken considerable effort with the air conditioning, the sound, and the floor to ensure your dancing pleasure. If you have any concerns during your time here, please let us know and we will do anything in our power to help you have a good time.

As your Lakeland convention chairs, we have been working hard with some of the best people on earth to bring this convention to you. With our vice-chairs, Art and Jacquie Hayes, and all our department chairs, as well as their committee members, we have been striving to make you want to come back to Florida for another convention sometime in the future. If you see someone walking by wearing either a staff or a board of directors’ ribbon, feel free to thank them for all they are doing for the benefit of all of us.

Our two focus rhythms this year are Quickstep and International Tango. These were selected based on the input of the dancers who attended last year’s convention in San Antonio. Each rhythm will include workshops on Wednesday, (introduction, intermediate, advanced, depending on the hall), and a dance routine appropriately choreographed at each level will be taught in each hall sometime during the week. Notice that instruction will take place in three halls, in order to include our outreach program for the phase three-four dancer. All of this instruction will be taught by some of the world’s best teachers, and they do this for you! They are not paid for this, so again, thank them when you see them!

During your stay in Florida, hopefully you will avail yourself of some of its amenities. We have beautiful beaches, and sports such as golf, wonderful amusements, such as the Disney/Universal parks, the Kennedy Space Center, and Busch Gardens. There are many other things to do within a half day drive from Lakeland. We have fine restaurants downtown a short distance from the convention center, as well as an in-place snack bar right here between dance halls...and there is a rumor of ice cream???

Most of all, we want to thank you, yourself, for coming. We hope you have a wonderful time, and leave wanting to come back.

Sincerely
Joe and Debbie Krivan

Every rhythm has its own characteristic way of moving. When it comes to Tango, you have three options. Depending on the music and the choreography, it could be Argentine style, reflecting the roots of tango in the ports of Argentina; or International style, more staccato, with head shrugs, the form adopted by the British; or American style, more playful with a little bit of Hollywood.

The incomparable Eddie Palmquist likened the differences to a Lady’s temperament. In Argentine tango, the Lady dances seductively, almost cuddled to her partner, as though “yes” would be her answer to any request from him. In the very English International style tango, the Lady is aloof, and the head tics and sharp turns into and out of closed position indicate her answer would be definitively “no.”

American style has always been playful, from the Hollywood image of Rudolph Valentino stomping across the floor with lead hands stretched out in front. As Eddie would characterize it, the Lady is responding to her partner’s overtures with a “maybe.”

As different as the styles are, they all came to the dance floor from South America. It is believed the name “tango” came from the Latin word “tangere” meaning to touch or the Castilian “tano” meaning “I play.” Remember where Tango started, and the name makes sense. Traveling musicians took their tango to Europe in the early 1900s and it became the rage of Paris society. The British formalized it for competition in 1922. Hollywood stylized it for the movies of the 1920s.

Our focus for this seminar is Phase V where true International Tango figures and terminology come into round dancing.

Musical Timing
Tango is shown in cuesheets in 4/4 timing, meaning four beats in each measure of music. The most basic rhythm is QQS, which means you dance the first “Q” on beat 1, the second “Q” on beat 2 and “S” on beats 3 and 4, but tango has many variations of timing. For example, a progressive link in International tango is QQ, while a closed promenade is SQQS. These two figures together make up two full measures of music.

Movement
International Tango steps are deliberate, decisive and crisp, unlike waltz, foxtrot and quickstep, where we strive for a continuous smooth flow from step to step with body swing and use sway to bank into a turn. The tango feet are picked up instead of being skinned across the floor.

Tango is danced “flat” with no rise and fall, no body swing, no sway. Missing in tango are the elements—rise and fall and Man’s forward swing—needed for those gorgeous swiveling heel turns for Lady in the smooth dances. Instead Lady has a momentary duck-footed position as each foot is placed for such figures with heel turns as telemarks.

Knees remain relaxed in tango (not crouched). Forward steps in closed position and the first two steps in semi-closed position begin with a heel lead; closing steps are usually onto a whole foot. The part that touches the floor first will be referred to as inside edge of foot, inside edge of ball of foot, heel or whole foot. We will refer to “knee veer” in many places, especially when figures end in semi-closed promenade. The free foot is tapped slightly ahead and to the side of the standing foot with pressure on the inside edge of the ball, such that the knees veer in toward each other. The sharpness, distinctive technique and Man’s mind set to be “macho” are what the English call “the tango atmosphere.”
Dance Position

Closed position requires space for those relaxed knees. To achieve that, stand in regular closed position, then keeping the feet on the floor, each partner turns 1/8 to the left swiveling the feet. The right foot slips slightly back so that the ball of the right foot is at the instep of the left foot. This will give you the feeling that your right knee is “tucked” behind the left and leaves room for partner’s knees to nestle in. Closed position figures end in this foot position.

The dance position for the upper body is more compact than other dances. Man’s right hand comes further across Lady’s back, to her spine, and lower than its placement in smooth dances. Lady’s left hand will be tickling his armpit, not on top of his arm. This gives the sense of “locking” yourselves together for the sharp compact movement of tango. Lead hands are joined much as for other smooth dances but brought in toward the body just a bit. Lady should feel her left hip is outside the Man’s right hip but not wrapped around it.

Basic Concepts

Walk: SS

The basic forward walk is done with Man’s right shoulder lead, giving the impression that it curves to the left. (A left side lead is used in the back walk.) For this reason, you may hear it cued “walk 2” or “curve 2.” On Man’s first forward step (L), his thighs will cross in CBMP (see below) as the left foot steps in front of the right, and on the second step (R), he will walk out of CBMP. Think of an arc drawn on the floor in front of you, with Man’s left foot walking on the inside of the arc and his right foot on the outside of the arc.

CBMP (Contra Body Movement Position): This results from placing one foot in front or in back of the other foot. Its general purpose is to help you stay in good dance position. You will recognize it in such ordinary figures as the thru step (inside feet) from semi-closed position, the step into the contra check, and the “forward to banjo and check” preceding a fishtail.

Tics & Head Shrugs: The compact frame and the sharp torso movements will cause Lady’s head to shrug from side to side when led by her partner. She can’t do it fast enough on her own to be effective or on time, making this is one place where the lead makes it happen, or not. It can occur on the right lunge, contra check, five step, at the end of a Spanish drag, or a turn from closed to semi-closed position, among others.

Figure Names: Semi-closed position is called promenade in tango, and figures in semi-closed position will often have “promenade” in their name. “Open” will be part of a figure name to indicate feet end passing instead of closing. “Link” will be part of a name telling you to go from one dance position to another.

Families of Figures

Promenade family SQQS

Closed promenade: Forward walking steps from semi-closed position with Lady turning to closed position.
Open promenade: Forward walking steps from semi-closed position to banjo.
Promenade: Walking staying in semi-closed position throughout.
Back open promenade: From semi-closed position with Man folding in front of Lady to closed position, and Lady dancing Man’s contra check at the end.

The Links

Progressive link QQ Transition from closed position to semi-closed position.
Promenade link SQSQ Transition from semi-closed position to closed position, may be step-cued as “forward,-, pickup, tap.”
Outside swivel link SQSQ An outside swivel with a pick-up.
Quarter Beats, Brush Tap & Other Syncopations

**Quarter beats** Q&Q&S  Keep your head still while feet and lower body move forward and back, as though someone is holding you by the neck.

**Brush tap** QQ&S  Closed position, forward turning left face, normally 1/8\(^{\text{th}}\) turn, with side, brush and tap.

**Back Twinkle** S&S (or QQS)  Back, close, tap in semi-closed position. May turn to face on second step for effect.

Decidedly Tango Figures

**Stalking walks** SS  Exaggerated walks in semi-closed position.

**Five-step** QQQQS or QQS&S  Figure starting in closed position, with four weight changes and an action to turn to semi-closed position at the end.

**Back corte** SQQS (not to be confused with the intermediate figure “corte”) An advanced box finish.

**Rock turn** QQS QQS  Rocking steps to a closed finish.

This image of tango appeared in “The Tango & How To Do It,” published in 1913 by Gladys Beattie Crozier. The figure shown is “La Promenade,” a walking step. England’s Dancing Times first published an article on tango in 1911, calling it “the latest Paris ballroom novelty just arrived from South America.” This was before the British refashioned it into the English Style, later to be called International Style.
The Quickstep
Dick and Karen Fisher
ICBDA Convention 2011

The quickstep is a joyful but demanding dance. The basic figures are simple, easy to learn, and easy to fit to the music. The tempo and bright character of the music add to making quickstep a joy to dance. However, mastery of the basics is essential if one wishes to really enjoy quickstep.

The walk, the chassé, and the lock are the foundation of many quickstep figures, and we should attempt to master them before we worry about figures. The walk in quickstep is not different from that in other smooth rhythms; however, in quickstep it is very important to execute it properly in order to keep the body from popping up and down as well as to conserve energy. However, before we begin to look at the walk we must have the correct poise, or carriage of the body, and balance, or distribution of weight, foot alignment, and dance hold.

The dance hold is a matter of personal preference, but a quiet and unvarying top line is essential in quickstep. The elbows should be held only slightly forward of the shoulders and as widely apart as possible. They should not move from this position. The man’s right elbow should never move back of the shoulder line. Correct poise and balance is achieved by having all of our blocks of weight in alignment. When we stand normally this is usually not achieved. There is a tendency to have our chest and head out of alignment. To correct this, use your abdominal muscles to lift the chest and then move your head back so that it is aligned over your spine.

The forward walk: Standing very erect with knees relaxed but not bent push the hips forward so that your weight is on the balls of the feet but the heels are still in contact with the floor. Take care not to allow your body above the hips to move forward. For our example, we will begin with the left foot free. Swing the left knee forward allowing the ball of the foot and then the heel to just skim the floor and extend the foot. At the full extent of the stride, the heel of the left foot and the ball of the right foot will be in contact with the floor. As the hips move forward, lower the left toe so that the full foot is on the floor then allow the hips to continue to move forward until your weight is on the ball of the left foot and repeat the process with the right foot.

The backward walk: This is more difficult than the forward walk. The person moving backward must be careful not to take weight onto the moving foot until the forward motion of the couple has caused a weight shift that forces them to do so. Taking weight onto the moving foot too early will impede the couple’s flowing movement over the floor, which can be particularly disastrous in the quickstep. Standing very erect with knees relaxed but not bent push the hips forward but keep your weight evenly distributed between the balls of the feet and the heels. Take care not to allow your body above the hips to move forward. For our example, we will begin with the right foot free. Swing the right leg back from the hip with the ball of the foot and then the toe skimming the floor. As the forward motion of the couple moves the center of gravity, begin to take weight on the ball of the right foot. Continuing to move backward, release the toe of the left foot and dragging the heel draw it back under the body toward the right foot. When the feet are parallel, lower the right heel to the floor, and repeat the process with the left foot.
The chassé: The basic chassé action (QQS) is side, close, side and forward or side and backward. The side close side steps are taken on the ball of the foot with the feet just skimming the floor, but there is a very definite placement of weight onto the ball of the foot at the end of each step. This is accomplished by flexing of the ankle and instep as the step is completed. The third step is taken ball flat preparing for a heel lead on the next figure by the person going forward.

The lock step: The lock step is a chassé in which the feet are crossed on the second quick. To accomplish this, step forward or backward on the first quick and then bring the knees together tucking the knee of the moving foot in front of or behind the knee of the supporting foot. This means that the feet will remain somewhat separated. Although the feet remain parallel to the line of dance, the person moving forward has a left side lead. Of course, this is the responsibility of the man. As in the chassé, the ball of the foot should just skim the floor as each step is taken.

In quickstep, the almost continuous contact of the feet with the floor, maintained by softening of the knees and allowing the ankles and the instep to flex, allows the dancers to move in a flowing motion across the floor without bobbing up and down. There is slight body rise and fall but it is nothing like the rise and fall in waltz. Even in figures such as telemark, impetus, and spin turn, which are danced like waltz, the rise and fall is minimized. Excessive lowering will lead to bobbing up and down and make quickstep a tiring dance. Body rise and fall needs to be dampened by having soft knees and flexible ankles so that the head shows little or no up and down motion. This conserves energy and does not tire the dancers out.

In this session, we will be working on phase IV and V figures, paying particular attention to body position, foot placement, and proper rise and fall of quickstep.
Quickstep - a wonderful dance rhythm where dancers move quickly around the dance floor performing runs, chasses and locks all while appearing to be light as air. No really! It is possible to dance quickly and also be in control.

The Quickstep was developed in the 1920s from a combination of Foxtrot, Charleston, Shag, One-Step and Peabody dance crazes. In that era Foxtrot was danced quite quickly and the kicks and hops of Charleston and Shag were added along with runs and locks. Foxtrot then slowed evolving into “Slow” Foxtrot and the quicker version became Quickstep.

Characteristics: Elegant and smooth, Quickstep is a dynamic, energetic rhythm with dancers moving lightly and freely on their feet. Distinctive to the Quickstep is an up-and-down, rise-and-fall swinging motion performed at a fast pace.

Dance Position/Frame: It is critical that upper body posture be straight and frame must be strong throughout each figure. Poise is slightly forward so that the body weight is balanced across the inside arches of the feet. Quickstep is danced primarily in Closed Position and there is also significant use of contra body positioning particularly in the locks and chasses.

KEY POINTS!

Movement: Since Quickstep is usually danced at a faster tempo than Foxtrot, steps are not as long and rise is not so prolonged. Dance lightly on the feet using the ankles as much as possible (like shock absorbers) to accomplish rise and fall. In general most of the "slow" steps (or passing steps) are taken on the heel, while most "quick" steps are taken on the balls of the feet (closing or locking steps). Slow forward steps are heel leads rising to the ball of the foot if followed by a quick. A slow at the end of a figure such as a chasse or lock is to the ball of the foot then lower to the heel collecting the free foot. Lowering action should always be soft and gradual creating a smooth and graceful feeling (not a quick drop or “klunk”). Slow backward steps are to the ball of the foot then lowering to the heel.

Rhythm Patterns: The basic timing is SQQS (1 ½ measures) thus often crossing measures. In choreography figures from other rhythms such as Foxtrot or Waltz are often added using SSS (particularly for rotating figures) and Q&Q timing. Figures are also based on SQQ, QQS or SSQQS. Choreographic variations and advanced figures may utilize split beats, such as Q&Q&QQS.

Again note that basic timing may change depending on choreography.

Yes! Let's dance Quickstep
We have noticed that often in Round Dancing when we learn a new rhythm, the focus is on learning the footwork and figures that apply to that rhythm. It is often not until we are dancing at a higher or more advanced level that any time is spent on the characteristics of the rhythm. Yet this is really the essence of each rhythm - what makes the difference between a rumba and a cha cha, or a foxtrot and a tango, etc. The individual style of each rhythm is integral to defining the movement and feel of each dance. But more than in any other dance, the style of Tango is what makes it dynamic and unique. Without style, Tango is simply walking around the room. So we would like to take a few moments of this clinic and try to help you all get comfortable with the specific "personality" of tango, and hopefully give you a few ideas on how to make it "your" rhythm.

We would like to start with a few of the basic ideas first, since it is important to understand and be able to dance those properly before we move on to some other figures.

The Hold

Even at the higher levels there are times when some feel uncomfortable with the "Tango hold". Try to think of it as your normal ballroom hold, but a bit more compressed. Remember that the compression comes in from the core, not just bringing your arms in, and of course keeping your head up and a good top. Your knees are flexed; think more of relaxing your knees then actually bending them. When you flex your knees, don’t drop your hips. This means that you need to keep your hips under your shoulders and simply allow your knees to move forward. Be sure that your knees veer in towards each other; the knees are inside the feet. As you stand in Promenade Position, or Semi-Position, because of your tight-V body position and inward veering of the knees, the inside of the Man's left knee will be touching the outside of the Lady's right knee.

No Flight, No Sway

While this rhythm belongs to the moderns, it is really in a class of its own. Unlike the other modern dances, it has no swing, no sway, no rise and fall and no body flight. What does this mean? We of course move across the floor, but our body does not exceed nor precede our feet. As our feet are placed down and complete weight is transferred onto the supporting foot, there is slightly more downward pressure exerted through the foot against the floor than in the moving dances such as waltz, foxtrot, quickstep. The center of gravity is lower in the Tango so the weight is more in the center of the foot instead of on the balls of the foot (weight on the balls of the foot will give more body flight). Sway is also excluded from Tango technique for the simple reason that movement, deprived of the impetus of body flight, does not require sway.

Movement

Tango is danced with a right side lead for the man and a matching parallel closed position for the lady, consequently in Closed Position all forward steps on the left foot and backward steps on right foot are danced in CBMP (Contra Body Movement Position); i.e. with thighs crossed. Similarly all forward steps on right foot are danced with a right side lead and backward steps on left foot are danced with a left side lead; i.e. with thighs open. You need to be careful
not to “twist” your body into this position. Your whole side leads so that as you step you will be stepping across your body. In Closed Position, the foot placement of all forward steps start on the left side of each foot and for all backward steps it is the right side of each foot. The feet are slightly lifted and placed on each step — rather than gliding to position as with other dances. At the full reach of a step the knee is still slightly flexed.

Timing
Tango is written to music that has 4 beats to the measure - each quick getting 1 beat, each slow getting 2 beats, and of course we can have all sorts of syncopation, but let's concentrate right now on just the slows and quicks. Particularly on a slow step, you can step on the first count, and hold on the second count, or visa versa.

The Dance
Some say that tango is a serious, dominant, almost angry dance. We like to think of Tango as a passionate dance. It is also a dance that incorporates "stillness". We can use the quick foot placement, then the resulting stillness to add to the mysterious, sometimes cat-like movement that is so characteristic of this rhythm. It is a dance of contrasts. While there are often quick head movements, we need to keep the core of our bodies still, as our head moves on a horizontal line, neither up nor down. There are even some figures where you can even play around with the timing, placing the foot either at the beginning of the beat or at the end for different emphasis.

Some figures
Some of the figures we would like to work on, depending on the time are:
- The tap, phase V
- Promenade Figures, phase V
- Double Closed Promenade, phase VI
- Natural Twist Turn, phase VI
- 4-step, phase V
- 5-step, phase V
- Throwaway Oversway, phase VI
- Reverse Fallaway and Slip, phase V
- Telespin, phase VI

HALL OF FAME

MIKE AND LEISA DAWSON
Jack started dancing as a pre-teen. He was a member of a Square, Round, and Folk dance Exhibition Group for about three years. He then graduated from high school and joined the Navy to serve on submarines. While in the Navy Jack and Judy married and were stationed in Hawaii. After leaving the Navy and returning home to Spokane, in 1980, he talked Judy into taking square dance lessons that fall. In the fall of 1983 Jack started cueing for a Square Dance club, which quickly became many clubs. During that year they were introduced to the world of Intermediate Round dancing by a local intermediate teacher. Judy’s first comment was “That’s what I want to do!”. It was love at first sight.

Jack and Judy held their first Phase II basics class in 1984. In 1986 they started their first Phase III-IV intermediate basics class. They currently teach basics in intermediate levels from Phase IV-VI for two Round Dance clubs in the Spokane area. Jack cues dances at all intermediate levels. Jack and Judy have composed many dances, among these; Fat Cat Boogie, The Kiss, My Heart Belongs To Daddy, Flower of Azami, Stray Cat Strut, Angel, Lady Marmalade, Boy From New York City, Adios Amor and Autumn. Jack and Judy often travel to intermediate and advanced weekends and clinics. They feel the enjoyment of dancing is as important to the teachers as is learning and improving their own skills. They firmly believe that if the instructors don’t enjoy what they are doing, then neither will their students.

Jack and Judy have been the featured Round Dance Instructors for many Intermediate and Advanced Dance Weekends in the U.S. and Canada. They were featured Instructors at the “CRDA Gala” in Greeley, Colorado in 1998 and 2002. They have also been the featured Instructors for the “August Of Rounds” in Spokane, Washington for the past twenty two years and the “Rounds of April” in Kennewick, Washington for the last fifteen years and are scheduled again for both in 2011. Jack and Judy have done many intermediate weekends including Shreveport, Louisiana, Tucson, Arizona; Mesa, Arizona; Albuquerque, New Mexico; Seattle, Washington; Salt Lake City, Utah; Plant City, Florida, Saskatoon, Saskatchewan, and other locations. In addition they have an advanced five-day clinic in Hood River, Oregon. They have attended many ICBDA/URDC Conventions and have taught at four different conventions and at three teachers clinics. They are past members of the URDC board of directors.

Jack and Judy have been married for 35 years and have 3 beautiful children. Jennifer, Jason and Hilary and two beautiful grand daughters, Adalynn and Tallulah who all live in Spokane. Jack works for a local state University in the Information Technology department and Judy is staying home to keep the family and house organized.

Jack and Judy are currently members of Roundalab, ICBDA, National Carousels chapter 197, and the Dixie Round Dance Council.
Cindy and Tim have been teaching together since March 2008. They currently teach beginners through phase 5 round dancing for their Rocket Rounds club in their own home studio in Huntsville, Alabama.

George and Pamela have been round dancing since 1989. From the first lesson, dancing quickly became a most enjoyable focus of their lives. When they began teaching rounds in 1995 in Anchorage, Alaska, it was a logical progression for their love of dance. George and Pam began taking ballroom lessons to enhance their rounds in 1992 and continued studying with Percell St Thomass, former Ohio Star Ball Champion, until leaving Alaska in June 98. They continue their education while in Mesa, AZ; currently taking private instruction from Kathy Creamer-Weiss at the Stardust Dance Studio. Besides her certification in International Dance, Kathy specializes in Argentine Tango and got them excited about it. They have since studied with Argentinean teachers on several cruises.

George and Pam taught and cued at the National Convention in Anaheim, CA, at all National USA West Conventions through 2006 as well as many URDC’s (now ICBDA). They cue and teach for many festivals and clinics around the US and Canada. They love to travel and have cued and/or taught in 31 of the 50 states. Internationally, they have made their mark, having taught in Germany several times as well as Scotland, Sweden, the Czech Republic and Slovakia. They love Australia and have been Down Under 3 times, having cued and/or taught in 5 of the 6 states in Australia and the North Island of New Zealand. They both retired in February 1998 (both from the Air Force and George from Teamster’s as well) and love traveling in their retirement home on wheels. They incorporate dancing, cueing, and teaching with their travels. Texas is home base as Pam’s parents live in Rosewood and they try to spend Spring and Fall there. They teach Phase IV – VI in Mesa, AZ from November through March. Their Mesa sessions represent The Dancing Gypsies (Carousel Club 323) and Carousel Club 203 which they inherited from Bob and MaryAnn Rother in Fall 2003. George also cues for Dave Wilson’s Advanced Square Dance while in Mesa (as long as they can dance too!!).

They are members of ROUNDALAB, International Choreographed Ballroom Dance Association (ICBDA – formerly URDC), Texas Round Dance Teacher’s Association (TRDTA), Dixie Round Dance Council (DRDC), and are past presidents of the Anchorage Callers and Cuers Association. George and Pam attended both sessions of the East Coast Round Dance Leader’s College in August 1996.

Gert-Jan and Susie started round dancing in 1984 and cueing and teaching in 1986. They have a Carousels Club in Holland and they are also in demand for numerous festivals throughout Europe. They have had the opportunity to teach in England, Denmark, Sweden, Germany, The Czech Republic, Austria, Belgium as well as in The States. They held the position of European RD Coordinator for 12 years; they decided not to run for the position any more since they will be spending more time in the States. When first acting in that position they established the European criteria for the accreditation program for cuers and teachers. At the request of the cuers from the British Association they helped establish the same type of system in England. They have organized and held teacher’s schools in different European countries, and also organized the RD portion of ECTA’s yearly education-seminar convention, where they gave seminars. They have been involved with ECTA’s Education Program (EEP) and have written over 100 examination questions for EEP.

They have written a booklet to help new cuers and have written teacher notes for ECTA’s RD Council articles for the European dancers’ magazine. A number of their articles are on their website (www.rotscheid.nl), that they maintain primarily to further Round Dancing. Other articles they have written are published (in German and English) on the dancer’s organizations website at www.eaasdc.de.

They are members of their European organization, ECTA, their local organization, NVSD, as well as ROUNDALAB, CALLERLAB (Gert-Jan has also been a caller), and ICBDA/URDC. They have served on the URDC-TAC committee and for RAL they have worked on the Classic Cues Standardization Committee and they are also now on the Phase IV Committee. They have worked with RAL to help develop a standard cue sheet template.

Gert-Jan is a former amateur ballroom champion and has taken part in various competitions including the Open British Championships in Blackpool. Gert-Jan’s knowledge of figures, foot placement, body actions and technique have helped immensely in their round dance teaching. Together, in order to "keep up" and to get some dancing in themselves they take ballroom lessons.

Susie and Gert-Jan presently have the opportunity of spending about 1/2 the year in Holland, and 1/2 the year in the States. When in Holland, as well as getting to see their family and friends over there, they teach in various parts of Europe and run their own Carousels Club, #236. While in the States, they get to see their daughters and grandchildren. And they teach and cue at the Carousels club #69 in the Atlanta area, as well as travel, cue and teach throughout the States. (Aren't we lucky people!!)
Michael and Diana Sheridan have been active in round dancing since 1974 and teachers since 1975. They have been active members of URDC serving on the Board of Directors from 1980 until 1984, 2001 until 2005 and 2006 until 2009. They served 2 terms as Chairman of the Board, 2 terms as Vice President and one term as President. They have been members of TAC, the Technical Advisory Board of URDC. Michael and Diana were General Chaircouple for the 1981 URDC Convention in Grand Rapids, Michigan.

The Sheridans have worked to improve their dancing through ballroom lessons and have been accredited by the American International Dance Teachers Association (AIDTA). They are members of Round-a-Lab. They have taught at several URDC and ICBDA conventions, at festivals throughout the country and currently teach the dance program for the Leisure World Shall “We Round Dance” Club in Mesa, Arizona.

The Sheridans have written a number of dances including
“Rumba My Way”,
“Vaya Con Dios”,
“The Human Thing to Do”,
“A Tisket A Tasket”,
“He’s A Tramp.”

“Happy Medley”,
“Our Love Affair”,
“The Lady’s in Love With You”,
“Illusion”
Tim and Debby discovered round dancing in Rapid City, SD, in 1981. After enjoying easy level rounds Debby learned to read cue sheets and began cueing so they could continue to learn routines. In 1985 they started an easy intermediate round dance club that eventually matured into the National Carousels #136. While in South Dakota they cued for local festivals and square dance clubs and traveled many miles to attend round dance festivals. Tim and Debby had the pleasure of serving as clinicians at round dance festivals in Iowa, Kansas, Nebraska, Colorado, Alaska, and Saskatchewan.

A change in Tim’s career in the fall of 1997 took Tim and Debby to a new home in Las Vegas, NV and many new dancing opportunities in the southwest. They danced with several Las Vegas round dance clubs and in 1999 (with the retirement of a local leader) began cueing for National Carousels Club #51 and a phase 4+ evening of dancing. They have since taught several introductory classes and have added another evening for phase 2 and 3 dancers. They have been leaders at festivals in Oregon, New Mexico, California, Nevada, Idaho, Oklahoma and Utah.

Tim and Debby have been members of Roundalab for 28 years. They currently serve as the Roundalab Phase 5 Round of the Quarter Chair. Their choreography includes ‘All Kinds of Everything’, ‘Open Arms’, ‘Dark Waltz’, ‘My Heart Will Go On’, ‘Lazy Crazy Days’, and ‘Big Spender’. 
CURT and TAMMY WORLOCK
Plant City, FL

Curt started round dancing at the age of 13, and began cueing at 16. Tammy met Curt when she attended one of his beginner classes at the age of 16. Curt has been cueing for 32 years and has been teaching for 30 years making round dancing their career as full-time instructors. Currently, they are members of Roundalab, where they serve on the committees for both the Phase VI Round of the Quarter and the Phase V Figure Standards. As members of ICBDA, formerly URDC, they have served on the Board of Directors and as President. They are also members of DRDC, and leaders of National Carousel Club #32. They received the Golden Torch Award for outstanding contributions to Round Dancing in 2009.

Some of their past choreographies are
Starlight, Patricia Cha, Heavenly Waltz,
Wounded Heart, Hola Chica, Where Or When,
Jurame, Adagio, Jack Is Back,

Sugar Sugar has become a Roundalab Golden Classic.

They have been on staff at numerous weekends around the US, Canada, Germany, Australia, Sweden, and Japan. They currently conduct 4 classes, under the name “Stardusters,” from Phase IV-VI, plus give private lessons while working around their weekend schedule. They are continuing their own education by taking lessons with their International Ballroom Coach Alan Tuggey from England. Along with their 7 Boot Camp DVD’s, they have also produced a series of DVD’s currently consisting of 12 Volumes titled “Private Lessons With Curt and Tammy”. This educational series is set in a clinic style teaching format dealing with the execution and lead of many figures in various rhythms.

Besides teaching they love to dance, of course, but a higher priority are family outings and vacations. They have 2 daughters, Mandi Christine, 25, and Kasandra Marie, 18, as well as a 3 year old granddaughter Brianna Christine. Tammy says they still enjoy traveling with their younger daughter to weekends in the summer and riding the top roller coasters in the country when they can.

Fourteen years ago, with the help of many local round dance couples, they opened their own beautiful dance hall, the “Stardust Dance Center”, which features a 5,500 square foot floating hardwood floor. Its primary use, of course, is for Round Dancing, where they feature several events including an annual week-long event which recently celebrated its 9th anniversary in March called the “Colossal Week of Rounds”, formerly held at the Coliseum in St. Petersburg, Florida.

As owners and managers of the Stardust Dance Center, teaching locally and abroad, and maintaining the responsibility of raising a family, they definitely keep busy. Curt and Tammy say that they are blessed to be able to do something they love, but that they could not do it without the help of God. They are very grateful for all their friends around the dance world, and the opportunity to travel in hopes of giving something back to this great activity that has given them so much enjoyment.

Elected to the RAL Board of Directors in June 2006 for 3 years – Chaircouple of Phase V Standards and Procedures. In addition, Bob is the Chairman of the RAL Technology Committee.

Bob and Sally have been the featured instructors at square and round dance festivals in Canada, Ohio, Michigan, Wisconsin, Wyoming, Illinois, Texas and New Mexico for 32 years. They conducted a school for Cuers in San Antonio with another round dance couple. They promoted and were the local staff for Round-A-Rama weekends in San Antonio, TX and Los Alamos, NM for five years. They attended the first URDC convention when it was held in Kansas City and taught at the URDC Convention in Grand Rapids, MI in the early 80's. They also have written a number of dances – It Sure Looks Good on You, Perfidia Bolero (ROQ 1st Runner Up), and Just As Much.

"We have been teaching round dancing for 30 years and would like to serve on the ROUNDA LAB Board of Directors to continue promoting round dancing all over the world and in venues other than square dancing. We have begun this task by using Social Dancing lessons as a way to get a larger audience of dancers interested in round dancing. Thanks to Carter and Ruby Ackerman and Irv and Betty Easterday and their shared materials on how to do this. We have tripled our round dance club in one year! We hope to introduce the new dancers to round dancing. These dancers are learning that cueing helps learn more easily than having to concentrate on their feet and leading in the beginning.

We want to continue sharing this information with all in ROUNDA LAB to help promote round dancing without depending solely on square dancing to feed our hobby and profession. We also want to promote the friendship and fitness that comes through dancing.

Since education is so important to both of us our first desire is to support and see that the education program at the convention continues and flourishes over the next few years. They were the 2005 ROUNDA LAB Convention Education Chaircouple in Kah-Nee-Ta, Oregon. We want everyone to know that this convention was 99% education with so little business you won't believe it!
Mike started round dancing in 2005. Leisa danced briefly as a teenager, but thought her round dancing days were over until Mike decided to give round dancing a try. In early 2006, upon Larry and Adrienne Nelson’s encouragement, they started dancing at the Carousel level. In 2007, upon Don and Leona’s retirement from dancing, they took over the local Carousel club. There is also a small group that dances Level 3-5 weekly which includes Bob and Joanne Coffeen and Leisa’s parents.

Mike and Leisa currently take ballroom coaching (American and International) from Michael and Lila Shultz. They also take West Coast Swing and Country Western lessons from Mark Harris. In addition, they take lessons from John Swick and Isabella Jundzill whenever possible. Mike and Leisa currently teach a weekly Intermediate Ballroom class. They have been introducing their class to Round Dancing to try to spark some interest in growing our hobby.

They were featured clinicians for the Kansas Round Dance Fall Festival (levels 2-4). This was a great introduction to writing dances and presenting in a clinic format. They thank Gene and Vicki Spiess & Paul and Linda Robinson for presenting opportunities for growth.

Mike and Leisa are currently Secretary/Treasurer for the Kansas Round Dance Association and Treasurer for the Missouri Round Dance Association. In addition, they are also Program Chairmen for the two festivals. Currently they are serving with ICBDA as co-Registration chairman with Debbie Hawks for this Convention.

They both have jobs in the computer industry (Mike as a programmer and Leisa as a project manager). Mike worked for many years as a Financial Analyst and auditor before transitioning to computer programming at DST Systems. Leisa has a degree in Insurance and works for Computer Sciences Corporation managing accounts for very large insurance companies. Leisa has a PMP (project management) certification (as well as many insurance certifications).

They thank the ICBDA festival chair for giving them the opportunity to teach at this festival. It is truly an honor.

They have one son (Brock, age 26) and two dogs (Buddy and Duke).

PLEASE ATTEND
the
Annual General Membership (AGM)
Meeting
Saturday, July 23, 2011
1:00pm to 2:00pm
Hall B (Phase IV - V Hall)

Following are the proposed bylaws changes to be voted upon at the meeting.
1. PROPOSAL TO REDUCE THE SIZE OF THE ICBDA BOARD OF DIRECTORS
Submitted by Tom & Gail Debo, Committee Chaircouple

BACKGROUND: At the Board of Directors (BOD) meeting in Joplin, MO, July 21, 2009, the President appointed a committee to investigate reducing the size of the Board of Directors and report their findings to the board at the BOD meeting in San Antonio, TX, in 2010. Members of this committee were: Tom Debo – Chairman, Brent Moore, Mark Prow and Susie Rotscheid.

Throughout the year this committee developed and discussed several alternatives for reducing the size of the BOD, including making the size of the board a percentage of the total membership (changing as the membership size changes) and reducing the number of positions on the Board to 18, 15, or 12. Note: a position can be occupied by a couple or a single member. All members of this committee, and many members of the board, felt that the Board should be reduced from 21 positions to a smaller number. Reasons introduced and considered included (1) the board appears to be too large for an organization of ICBDA’s size, (2) may make the annual meeting and electronic meetings more efficient and it may be a little easier to get policy/decisions made, (3) save money since the expenses for the annual meeting would be less, and (4) recruit fewer board members. After discussing the pros and cons of these alternatives, this committee unanimously recommended the following motion to the BOD.

MOTION: Reduce the number of the ICBDA Board of Directors from 21 positions to 12.

This motion was approved at the Board of Directors meeting in San Antonio, TX, July 6, 2010, for presentation to all ICBDA members in attendance at the ICBDA Annual General Membership Meeting in Lakeland, Florida, July 23, 2011, for their approval.

It will take several years to get down to a smaller board due to Article X, Section 2 of the Bylaws, which states that any change in the number of officers or board members can not displace duly elected people currently serving. If approved by the membership, implementation would take three (3) election cycles (four (4) positions elected in 2013, four (4) positions elected in 2014, and four (4) positions elected in 2015) before we could get down to a twelve (12) position Board.

IF THE MOTION IS APPROVED BY THE MEMBERSHIP IN THE JULY 2011 ANNUAL GENERAL MEMBERSHIP MEETING the following changes will be made to the Bylaws:

ARTICLE V - Board of Directors, Section 1A change to:
The Board of Directors shall consist of twelve (12) positions elected by the active members according to the procedures in Article IX, Section 2. Active individual members and couples may be elected to the Board. The Board shall, therefore, consist of twelve (12) positions or twenty-four (24) members, except when some of the positions are occupied by an individual or when Section 2 below) or Article VI, Section 4B applies.
The following changes that are related to the number of Board positions elected each year, four (4), or the total size of the Board, twelve (12), will be made:

- Article V, Section 1B: election of seven (7) member couples – change to four (4)
- Article V, Section 3C: Quorum of at least twelve (12) members – change to six (6)
- Article V, Section 4: Maximum of forty-two (42) – change to twenty-four (24)
- Article IX, Section 2K: vote prevents naming seven (7) – change to four (4)

2 PROPOSAL TO CHANGE ELECTION PROCEDURES
Submitted by Marlyn and Michele Batcheller, Elections Chaircouple

BACKGROUND: According to Article IX Election Procedures of the bylaws, “Voting for the Board of Directors and Executive Officers will be conducted on the ICBDA website beginning May 1 and conclude July 1”. The elections chair notifies the newly elected officers and board members as soon as results are obtained, usually within 2 days of the close of voting. Upon notification, these individuals are also invited to be guests at the annual board meeting which is held the day before the start of the annual ICBDA convention. Enabling our newly elected officers and board members to attend the meeting allows them to see the working of the current board, get acquainted with current board members, and comprehend the role and duties of a board member. Time to make arrangements to attend, however, is sometimes very short. For example, last year, candidates were notified of the election results on July 2 and the board meeting in San Antonio was July 6. Changing the timing of the election period to relate to the date of the annual ICBDA convention, while maintaining the current 2-month election period, would benefit our newly elected officials by giving them more time to make travel plans and get travel discounts. Voting opportunity for the general members would not change.

MOTION: To change the election period for Officers and Board members which currently begins May 1 and concludes July 1 to begin at least 3 months prior to the start date of the annual convention and continue for a 2-month period.

This motion was approved by the Board of Directors on March 8, 2011. The motion will be presented for a vote to all ICBDA members in attendance at the Annual General Membership meeting in Lakeland, Florida, July 23, 2011. This change, if approved, would take effect for the election period beginning in 2012.

IF THE MOTION IS APPROVED BY THE MEMBERSHIP IN THE JULY 2011 ANNUAL GENERAL MEMBERSHIP MEETING the following changes will be made to the Bylaws and Standing Rules (changes are identified by underlining):
